Dear Tom;

Our version is Microsoft Word 2000 -- 9.0. Please make sure what you attach is all you intend to publish and has all your photos and other possible non-text items.

Also, when communicating with us via email, please use [redacted] That way all of us will see it if I am on leave.

Sounds like a good idea to me. Address and phone are listed below. As soon as the fully edited text is completed I will forward to you. Which version of Word are you running? I know we've had issues with that in the past.

Best,

Tom Waters

Dear Tom:

We received your faxed pages and will begin our review. It is probably best if you re-verify your mailing address and telephone numbers. Due to the back and forth on your manuscript over a long period of time, we also suggest that after we respond on your latest submission, that you email, as a standard WORD attachment, the current, complete manuscript as you have it for a review before the galley stage. This may save critical time and effort at that stage. I may be reached at [redacted] and [redacted] is at [redacted]

Hello [redacted] and the rest of the PRB staff,

I have faxed over what I hope are the last of the editorial changes to my Class-11 manuscript. I am also mailing a copy of the faxed pages with the cited source materials referenced in my cover letter. I'm requesting a fast turn around on this review as we are quickly approaching the publisher's deadline for the approved manuscript. It's been a long and winding process, but the light at the end of the tunnel is finally looming into view.

As always, you have my sincere thanks.

Best wishes,

Thomas J. Waters Jr.
